

Acid Management and Removal Solutions

Ion Exchange to condition EHC fluids

FAST Fifteen

Give us 15 - we will give you targeted fluid cleanliness concepts for your machine.

Schroeder
INDUSTRIES

Kris Mikulan / Group Product Manager – Filter Systems

Applications for IXU

- Electrohydraulic control systems (EHC) in steam turbines
- Lubrication of Gas/Steam turbines
- Steel and Aluminum furnace hydraulics
- Die cast hydraulics
- Air/gas compressors
- Other applications with ester-base, flame resistant fluids

Schroeder
INDUSTRIES

Ion Exchange Units –IXU

Customer can realize:

- Increase operating reliability of the system as a result of fewer deposits
- Increase in fluid service life
- Greater machine and system availability
- Can be added to existing systems or installed on new systems

Phosphate Ester (EHC) Fluids

– Degradation problems caused by Acid:

- Corrosive to metal components
- Cause abrasion and accelerates wear
- Form deposits
- Increase viscosity
- Reduce the availability of machines
