Enjoy 35% off - Premier Portable Offline Filtration

Schroeder Industries is promoting an exclusive offer on its premier portable offline filtration system - the HFS-15 Hand Held Filter.

Leetsdale, PA. (August 7, 2020) – From now until September 30, Schroeder Industries, a recognized leader in fluid filtration and condition monitoring, is offering 35% off an exclusive build of the HFS-15 Hand Held Portable Filter.

The HFS-15 provides effective, portable filtration for filling and flushing hydraulic systems and the reclamation of serviceable, mineral-based fluids. It undoubtedly improves the service life of critical hydraulic components, entire hydraulic systems, and the fluid/oil itself.

This never before seen promotional rate from Schroeder Industries is an attempt to help operations lower the total cost of ownership and increase machine uptime during the COVID-19 pandemic.
